Revirado Project Blending the passion of tango with the improvisational freedom of jazz, the Revirado Project brings a fresh, engaging perspective to two rich musical histories. Led by Argentine saxophonist Enrique Thompson, the quintet balances fiery South American intensity with intricate arrangements.

From their base in Spain's Canary Islands, the group gives audiences an innovative experience which straddles continents but never loses sight of the improvisational freedom of jazz. In the words of 5x Grammy winner Arturo O'Farril: "it's art in its highest form!"
